

AminoQuelant[®]-Fe

IRON STRESS CORRECTOR

What is it? And what is it for?

AminoQuelant[®]-Fe is a product based on Free L- α -amino acids and other bioactive compounds, obtained through the exclusive Enzyneer[®] technology, together with iron. The combined application of L- α -amino acids and iron contributes to a better assimilation of iron and to a much faster and more effective distribution to the points of consumption.

Benefits

- Prevention and correction of iron chlorosis.
- Stimulation of the crop for a faster recovery of deficiency stress caused by iron deficiency.
- Rapid assimilation and response of the vegetable.

MOMENT OF APPLICATION AND DOSE

Dosage according to application mode

- **Foliar application:** 2,5 - 5 L/ha.
- **Drip irrigation:** 5 - 10 L/ha.

Its use is recommended via foliar when the level of active limestone is high and/or the pH is above 8.

GUARANTEED ANALYSIS

	(P/P)	(P/V)
Free L- α -amino acids (*)	5%	6.25%
Iron (Fe)	5%	6.25%
Total Nitrogen (N)	2%	2.5%
Organic Nitrogen (N)	1%	1.25%
Organic matter	15%	18.75%

(*) The formula contains each and every one of the biologically active free amino acids: ASP, SER, GLU, GLY, HIS, ARG, THR, ALA, PRO, CIS, TYR, VAL, MET, LYS, ILE, LEU, PHE, TRP.
